Featuring a high quality compressor designed for trouble free and reliable hot

Environmentally friendly R290 Natural Refrigerant which delivers superior efficiency

7-year warranty on the tank, a 5-year warranty on the rest of the system and a 2-year warranty for labor and parts

SPECIFICATIONS

MODEL	ECON-300RVW	ECON-300RVW-2.0E
Hot Water Capacity	290 Litres	290 Litres
Heating Capacity Watts	2650	2650
Maximum input current (A)	3	11.7
Rapid Boost Element (KW)	No	2
RCBO Current Rating (A)	16	20
Refrigerant/Charge (grams)	R290/380	R290/380
Application	Residential	Residential
1st Hour Delivery (Litres)	>300	>300
Tank Dimension(mm)	φ640*2005	φ640*2005
Storage Tank Litres	290	290

- Heat Pump activation Set Point at mid sensor on residential models is 55 degrees.
- All models power supply: 220-240V/50Hz
- All models operating temperature range: -7°C ~+43°C
- All Fittings (inlet & outlet): 20mm / G ¾
- Maximum water temperature: 70 degrees Celsius
- Protection Ranking Class: IPX4
- RVW models come with high efficiency DC compressor and advanced, variable frequency control. RW models come with optimised AC fixed speed compressor and fans.
- 1st hour hot water delivery = storage + hot water produced in the 1st hour. Typical production in 50 to 60 litres/hour depending on the model and the weather conditions.
- RVW-E models are the same as RVW models, except for 2 kW or 4.8 kW Rapid Boost Emergency Elements.
- Rapid Boost is activated from the top sensor and provides additional heat to the upper tank only, to provide heating under excessive load, or emergency hot water consumption.

Looking to **save money** and **boost** your home's **energy efficiency**?

Glower is an accredited provider of the VEU program, which means we not only help you choose the right system for your needs, but also handle the entire installation process, from the initial call to the final installation.

**290L ECONOVA
ALL-IN-ONE**

7-year warranty on the tank, a 5-year warranty on the rest of the system and a 2-year warranty for labor and parts

- ◆ 80% more efficient
- ◆ Back up element
- ◆ Local and reliable installers

Replace your old gas hot water system to an electric heat pump and access over \$3,000 in rebates.
